

PHYSICAL DEMANDS OF TRAVEL ON OUR TOURS:

Travel in Italy requires a certain level physical activity! Walking is an essential part of sightseeing in the ancient cities and hamlets of Italy.

Guests must be able to walk approximately 2 miles over uneven and cobble stone surface, inclines and 40 to 65 steps. Walking is a crucial part of the tour every day. Most Italian cities do not have accommodations for people with mobility issues which make walking and climbing stairs an essential pre-requisite. We regret we are not able to assist travelers with disabilities or mobility issues.

Comfortable walking shoes are essential! Due to the nature of this tour, it is not recommended for guests using walkers or wheelchairs or with mobility issues. If you have any concerns about the physical demands of any of our tours, please do not hesitate to ask us.
